

# RABBIT R&D WEBINAR

WEDNESDAY 8TH MARCH 2023 ON ZOOM

	TIME
WA	8.30 AM
NT	10.00 AM
QLD	10.30 AM
SA	11.00 AM
TAS, ACT, NSW & VIC	11.30 AM

This free webinar, hosted by the Centre for Invasive Species Solutions in partnership with Rabbit Free Australia, will bring together leading researchers and rabbit practitioners from across Australia.

**THEME:** Systems perspectives on rabbits. Rabbits and rabbit controls are parts of highly connected systems. Understanding components of those systems leads to better whole-of-landscape outcomes.

- **Dr Richard Price** (Kiri-ganai Research) will open the webinar.
- **Dr Brian Cooke** (University of Canberra) will speak on the 50 years of rabbit fleas and myxomatosis — what we've learnt and what's next.
- **A/Prof Katherine Moseby** (University of NSW) will speak on rabbit behaviour and interactions with predators.
- **Andreas Glanznig** (Centre for Invasive Species Solutions) will speak on the future of nationally coordinated rabbit research.
- **Adj Prof Wayne Meyer** (Rabbit-Free Australia) will speak on supporting national conversations about rabbits.

Register to attend [via this link](#).

Attendees will receive a link to the webinar via email 24 hours prior to the event.

Attendees will have the opportunity to put questions to speakers via a Q&A function and to participate in live polls on various rabbit control issues.

Reference materials will be available to attendees following the webinar.

Please direct any questions to Rabbit Free Australia via this [contact form](#).

Rabbits cause social, economic and environmental harm.
